I am a fun person who loves being enthusiastic. I am developing a diverse skill set that would allow me to excel in a variety of roles. Additionally, I possess excellent communication, organizational, and problem-solving skills, which would prove valuable in collaborating with teams and delivering exceptional results. I am always eager to take on new challenges and to develop innovative solutions that exceed expectations.

## EDUCATION

2022 - Present

### MSc. Artificial Intelligence and Machine Learning

Coimbatore Institute of Technology

Currently pursuing 1<sup>st</sup> Year

April 2019 - March 2022

### High School

Sri Chaitanya Techno School

Biology-Physics-Chemistry-Mathematics

## PROJECT EXPERIENCE

Currently this would be my first project that I would work on. I'm willing to learn more new knowledge here and get to exercise my coding skills.

## PROJECT INTERESTS

I basically love to Debug the errors and to contribute to the development of the project.

## SKILLS

### C Programming ♥

Being a bio-maths student in school, this is the first programming language I learnt, which gives me the confidence everytime and I'm comfortable with it.

### R Programming ♥

R offers a wide variety of statistics-related libraries and provides a favorable environment for statistical computing and design which I can help incorporate with the necessary problems.

### Python

Python has a wide range of applications in the current scenario of creating a machine learning model. I'm not so proficient in Python but I'm in the process of enhancing my skills.

### Basic JAVA

I've begun to learn JAVA and I'm in the process.
